Guest Speaker Douglas M. Grant

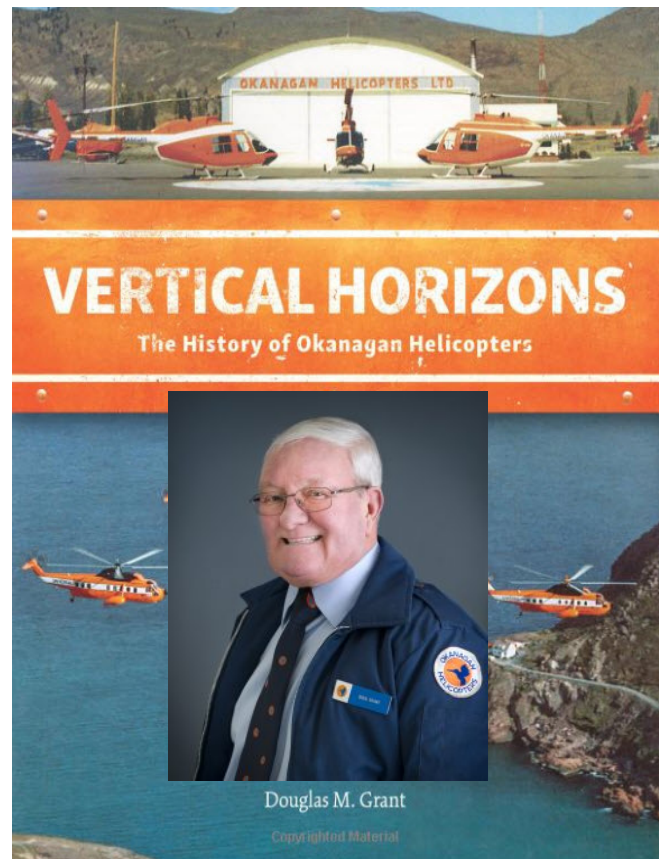

Vertical Horizons

The History of Okanagan Helicopters

In *Vertical Horizons*, Douglas Grant has compiled a detailed narrative of the role of helicopters in the hands of the corporate dreamers of British Columbia's Okanagan Helicopters Ltd. While the book does a great job of exploring the company's history, it cleverly tells a parallel story of technological innovation, pioneering tenacity, and hard work by pilots, engineers, and corporate management. The author gives ample credit to them all.

Grant brings this helicopter story to life in two parts. The first relies on what every good historian uses — lots of pertinent and original source material. He goes beyond this, however, and enlivens that story with a fresh and exciting collection of personal reminiscences. His vignettes give a clear sense of the high risks at stake, both physical and corporate.

Join us for a fascinating presentation by this ground-breaking leader in Canadian aviation history. The VERTICAL HORIZONS book will be available for sale.

Wednesday, April 18th 2018 @ 7: 00 p.m.

Public Welcome. No Fee. All Airplane Talk.
