

Norseman Run-ups!

[weather permitting]

Here is your chance to experience up close the noise, smell and sound of a big radial engine running on a vintage aircraft :

Saturday May 19

Saturday June 16

Saturday July 21

Saturday August 18

Saturday September 15

BCAM Videos

Randy Stagg offers new video stories from around the museum at the following links!

Colin Bowley recounts the incredible story behind a WW-II Wellington bomber tail-wheel displayed in the Memorial Room.

https://www.youtube.com/watch?v=r3_FbGAT05s

Dave Poole, A. J., Robert Hopkins and Bill Lane on Thursday March 15th raised the cockpit of the Hoffar H-1 and placed it in position over the pontoon then secured it for the next phase of the build. See The Hoffar H-1 Project "Conjoining Cockpit and Pontoon".

If you would be interested in making a 1 minute video of something in the museum, e-mail Randy Stagg at rjs@shaw.ca and we will make it happen.

Speaker Night Doug Grant

Wednesday 18 April 7 - 9 pm

Vertical Horizons -The Story of Okanagan Helicopters

Okanagan Helicopters pioneered the revolutionary use of vertical lift aircraft [helicopters] in a commercial setting. In the post-World War II era that fabled company played a leading role in establishing the techniques, applications and equipment that are still used world-wide. Doug will present a 40-year story of Okanagan Helicopters in stories, anecdotes and personal memories that represent this epic era.

With over 30 years working for Okanagan Helicopters, Doug has the technological background and personal experiences to tell the remarkable story of a determined company pioneering an entirely new field of aviation. As the author of the new book, *Vertical Horizons*, he is able to provide the technical details, insightful analysis and personal reminiscences that bring this remarkable slice of history alive. At this event Doug will also offer his book for sale.

Speaker Night is free, and open to the Public. We also offer cookies and coffee at a nominal charge!
