A Bulletin from  
The BC Aviation Museum

Vol. 07 Issue 08  
August 2018

## BCAM Lands a Lancaster!

After years of effort, the Museum has acquired one of only 17 Avro Lancaster bombers remaining in the world. A mainstay in WW-II, in the 1950s & 60s this iconic aircraft type served with 407 Squadron based at Comox, BC. The Press-Release accompanies this bulletin.

## Norseman Run-Up Saturday, August 18

While the museum does not currently fly display aircraft, this year it is running-up its vintage Noorduyn Norseman. This is your chance to experience up close the unique sights, sounds and smells of an old-school radial engine. Any aviation enthusiast should not miss this special opportunity.

## Volunteer Lunch Thursday, August 23 12 noon - sharp

The monthly museum luncheon is equal parts a social event, a thank-you to volunteers, and a museum meeting. Free to member attendees, but a \$3.00 ticket on the 50/50 draw is considered culturally correct.

Note: the meal may not be exactly as illustrated!
